Hi Richard

Good to meet up and continue our discussion yesterday.

- I have spoken with Rob the data guy – he has suggested a call with your people to assess what you have and the need he will then draw up a work plan , I have suggested after Easter for the initial engagement.
- Ed from BGF came back to me , to get this moving as his diary is busy, he has suggested an initial Teams intro (which is not unusual) in early May do you have any preferred dates here – maybe for 1.5hrs.

Also thinking more about US strategy, I think it's clear to me that we should look to do the following in 2025 -

1. Continue with FS access attempts & support accounts.
2. Grow Natural channel & the offering around that shopper
3. Sell / supply as many outlets as possible that draw from UNFI/Kehe - max out this RTM
4. Win Sprouts
5. Win Whole Foods
6. Start the dialogue with HEB in Texas (they own TX) it can take a year to unlock and do amazing volumes.
7. Identify / hire a resource in country

Securing this base in 2025 will provide a really strong jumping off point for a Kroger and a club account going forward and will show real traction for investors.

We should also talk UK strategy –

1. Existing platform of business and learnings from this.
2. Formulate a plan to access UK grocery / Club – Costco are doing really well in the UK
3. Proposition & competitive set insight – how we will win.
4. Size of the prize should we secure a decent ROS / Store base.
5. Resources required / existing capability & skill set.

Let's chat again once you have spoken with your accountant chap as I too have been thinking about how we work together and make this happen.

Regards
David
